IAPMO Meeting Thursday January 27, 2011

The Reality of Southern Nevada Tap Water

Mark Truncale,
Environmental Water Systems will discuss the reality of water issues in the southern Nevada area, how these issues have a serious effect on you and your

customers' health and homes, and how to properly select, recommend, and install the correct water filtration and treatment product.

"Breathing small amounts of chlorine for short periods of time adversely affects the human respiratory system. Effects range from coughing and chest pain to water retention in the lungs. Chlorine irritates the skin, the eyes, and the respiratory system."

— US Environmental Protection Agency

"Individuals and families have many opportunities to reduce or eliminate chemical exposures. For example, filtering home tap water or well water can decrease exposure to numerous known or suspected carcinogens or endocrine-disrupting chemicals."

— The United States President's Anti-Cancer Panel, report on reducing environmental cancer risks

The lunch is \$20.00, non-members, company employees and guests are always invited, so bring a friend. Please RSVP to Bill Laub by Tuesday, **January 25, 2011.** If you RSVP and get on Bill's list you get one free raffle ticket.
